Imp Version 9: Installation Procedure

DOWNLOAD & INSTALL MICROSOFT .NET FRAMEWORK 4.5

Imp Version 9 requires Microsoft .NET Framework 4.5 to be installed on the system. Please check whether it is already installed or not. If not, please download the offline installer from the below link:

http://www.microsoft.com/en-in/download/details.aspx?id=40779

Install the .NET Framework 4.5 using this installer.

DOWNLOAD IMP INSTALLER

Imp Version 9 is available for 32-bit and 64-bit operating systems. The installers can be downloaded from the below links:

Installer for 64 bit: https://www.dropbox.com/s/jmb1x0700ua9bnq/Imp9Setup_64Bit.exe?dl=0

Installer for 32 bit: https://www.dropbox.com/s/5jvan7z31xchf9t/Imp9Setup_32Bit.exe?dl=0

After downloading ImpSetup.exe, right click and check for **Unblock** button in right bottom corner, if it is shown, click **Unblock**, **Apply** and **OK**.

Run ImpSetup.exe and install Imp at the recommended default location:
C Drive > InSoft Automation > Imp9

After installation, please ensure that the user has full permissions to the Imp install folder:
C Drive > InSoft Automation > Imp9

LICENSE ACTIVATION

On-line Activation:

InSoft Imp is activated online with the unique 20 digit key provided to the user. This is common for Trial Users* & Permanent Users. To activate the license key, internet connection is mandatory.

- When Imp is launched for the first time after installation, the **Activate Imp** window will pop up.

- Fill in the Company Name and Serial Number (20 digit Activation Key provided by InSoft)

- Click Activate button, Imp will activate in less than a minute.

Firewall Settings: **Please ensure the following settings before online activation. The firewall restrictions may not allow the application to talk to our license server –**
Open Port number: 8018   IP: 69.175.94.226   Protocol: HTTP

For trial users internet connectivity is mandatory while the software is in use.
